**Subject:** Microsoft Settlement

Dear Sir,

I was not in favor of litigation against Microsoft in the first place. Now that a settlement has been proposed I believe any further litigation should be terminated. The States against settlement are wrong in asking for further restrictions on Microsoft and are extreme in their thinking. They do not understand competitive business and are in fact hurting the consumers they say they want to protect.

There should be no more consideration for further litigation. All this will do is damage the economy and not help consumers in any way.

Do you hear consumers complaining? I think not and believe consumers are satisfied. So, let's put an end to all this action against Microsoft.
